

Robotics Club Exhibition Competition

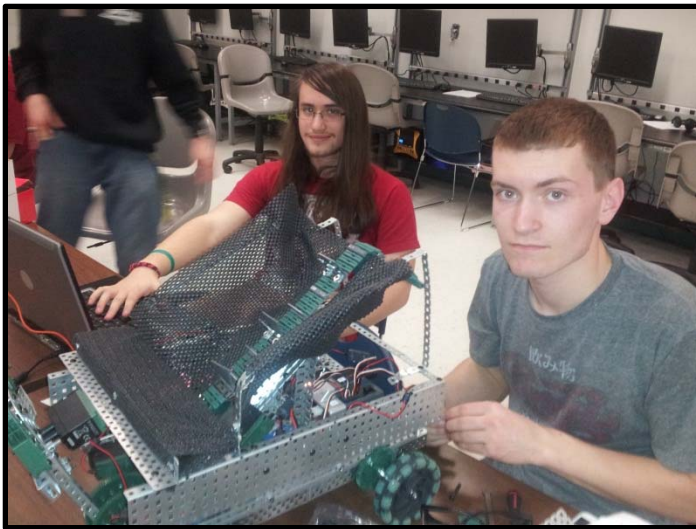

Saturday - April 5th, 2014
Area 30 Career Center
10am-1pm

What:

The Area 30 Robotics Club cordially invites you to see us in action at the Area 30 Career Center in our Community Room! We've created an exhibition competition for our robotics club members. Between our regular competitions, our teams have been hard at work designing robots to compete and see who's the best! This will be a great opportunity to see what VEX Robotics is all about, and how this could be incorporated into other STEM based classroom projects.

Team "Silver Wagon" working on their robot!

Public event:

We encourage students, parents, teachers, and administrators to attend. Concessions will be available during the event!

Contact Information:

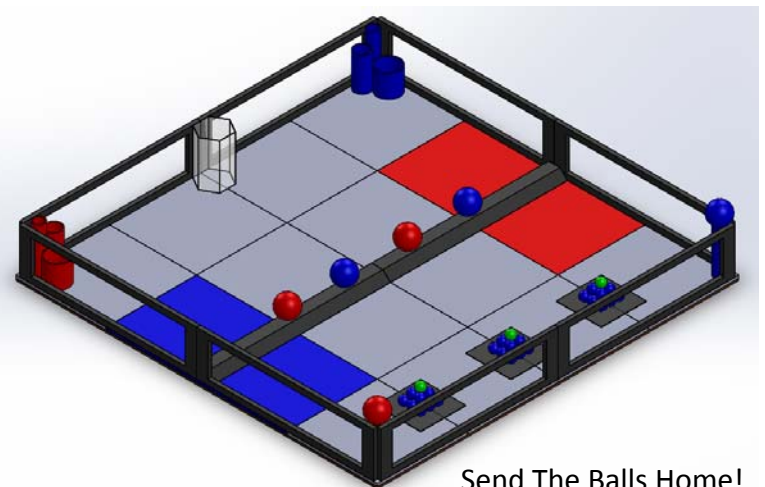

Zane Earles – 765-653-3515 x2136

Ruben Hinners – 765-653-3515 x2114

Directions:

1 North Calbert Way Greencastle
